9:37 AM-OSHA Spokesperson

Scott Jamison with OSHA provided an update on safety statistics in the oil and gas industry from 10/1/2018 – 11/13/2018. 10/1/2018 is the beginning of their fiscal year. They have seen burns, amputations and fatalities in Upton, Reeves, Pecos, Glasscock and Ward counties. They want to remind safety professionals to ramp up their JSAs and continue to look forward on safety. OSHA also updated the group on recordable incidents and that there is a regulation regarding the notification of OSHA of amputation and hospitalizations of 24 hours and eye injuries within 8 hours.

9:45 AM

There were no lessons learned shared today and the meeting was adjourned with prayer.
